Techno-Entrepreneurship Core
THE UNIVERSITY OF HONG KONG

Background

❖ Entrepreneurial Internship Programme (EIP) is a new initiative in 2023/24 which provides students with a unique opportunity to gain practical experience in innovation and entrepreneurship

❖ Selected student(s) will work for [Techno-Entrepreneurship Core](#) (TEC) and/or [Technology Transfer Office](#) (TTO) to support innovation and entrepreneurship-related initiatives of the University

Benefits for Students

❖ Gain hands-on experience from Innovation & Entrepreneurship ecosystem by working on commercialization processes from the top-notch research projects of HKU;

❖ Integrate and apply knowledge gained in coursework in a real-life setting;

❖ Improve problem-solving and collaborative skills in a working environment;

❖ Selected student(s) may opt for enrollment of the IIMT2628 Innovation and Entrepreneurship Internship, credit-bearing undergraduate course of HKU Business School (subject to the approval of faculty and course instructor);

❖ An honorarium will be provided upon successful completion of programme with satisfactory performance.

Job Scope

Selected students will work for TEC and/or TTO in the period of September 2023 – April 2024 on part-time basis (160 hours in total)* to support innovation and entrepreneurship-related initiatives of the University:

- ❖ Study HKU research projects and support on the assessment of commercialization potentials;

- ❖ Work closely with faculties and researchers to support the commercialization of research;

- ❖ Support portfolio management of research projects and start-ups;

- ❖ Support other innovation and entrepreneurship related initiatives.

* The actual period and number of hours of work will be subject to final confirmation from TEC and relevant offices.

Requirements

❖ Current HKU students in their undergraduates second year or above from all disciplines (in 2023/24 school year), postgraduate students are welcome;

❖ Strong interest and relevant knowledge in innovations, entrepreneurship, startups, and venture capital are preferred;

❖ Sound knowledge in biotechnology, engineering or science are preferred;

❖ Selected students should not hold other employment in the University during the programme period.

Timeline for Applicants

❖ Now – 15 August 2023
