Job Specification – Graduate Engineer Trainee (2022)

Job Title: Graduate Engineer Trainee

Location: Hong Kong Science Park

Responsible To: Engineering Team

Primary Responsibilities

- Study and understand various technologies and its applications in related domains
- Work with both external customers and internal technical team to understand their needs and apply technologies to develop suitable solutions
- Work with internal team and technical partners to develop customized solutions
- Define schedule, work tasks and statement of works by using project planning tools (e.g. Gantt Chart)
- Develop product or technology validation plans

Founded in 2012, WBD101 is a Hong Kong based company whose first patents are dated back to 2008, incubated by the Hong Kong Science and Technology Parks Corporation (HKSTP), it has offices in HKSTP and Shenzhen so as to provide very timely support to B2B customers during their product designs, testing and production stages. WBD101 focuses on very sophisticated SmartBody Sensing Technology. Over the years, WBD101 won numerous international awards including the Best Wearable Mobile Tech Awards at the Mobile World Congress 2016, Special & Gold Awards at the 43rd Geneva Inventions Conventions, 2016 WITSA Global ICT Award and the inaugural HK City I&T Grand Challenge Innovation Award.

Our target markets include the consumer earbuds segments as well as the in-ear probes for the healthtech/medtech markets. By enabling these hearables to have accurate, continuous and non-invasive sensing, we aspire to empower users to make better health decisions based on their own health data.

Qualifications and Primary Responsibilities

- Degree Holder in Engineering (Bio-Medical / Electronic / Physics / Related Fields) or Biomedical Sciences
- Passionate about Bio-medical Technologies and Ability to Learn
- Highly Responsive, Organized and Proactive
